

Requirements for Overseas Containers delivered directly from the wharf to ASB Showgrounds

Any shipping container from overseas that is transported directly from the wharf to ASB Showgrounds must be accompanied by the correct documentation. No containers will be permitted entry to the Showgrounds without the correct documentation.

The correct documents are either a Customs Delivery Order or a Biosecurity Authority/Clearance Certificate (BACC).

The container can only be opened by a Ministry of Agriculture and Forestry Approved Accredited Person. Showgrounds have Accredited Persons on site to inspect the containers if required or you can engage an Approved Accredited Person of your own choosing.

If the inspection of the container is completed by an Approved Person other than an Approved Person from the Showgrounds then a copy of the completed Container Log Sheet must be presented to the office of the Facilities Manager before said person leaves the site.

If contamination is found the container must be closed immediately and locked. The Ministry of Agriculture and Forestry informed and then await their instructions.
